Substitutions that will not be penalized

Word(s)	Output
Ain't	Isn't
He don't	He doesn't
Any gerund contraction (ex. doin')	Its uncontracted equivalent (ex. doing)
Word forms of numbers (ex. twenty)	Number forms of the word (ex. 20)
Number forms	Word forms of the number (must be exact number as the original)

Wernicke's

1. (medium quality)

<https://www.youtube.com/watch?v=aVhYN7NTIKU>

Black: patient

Blue: interviewer

They're good, you know. Both. **What's this?** You know, the. Teeth. and right there. I. End of the football. **End of the football?** Yes. As uh, uh, uh, and so it's a football. Right here. like, Cause it to comes in. See? **Yeah.** The end of it, see. Oh, we have all of didn't see. **I don't understand.** Well, it's uh, well it's quite a pile of the discovery, see. You don't understand it, but it applies in that long thread of each comin' from that way, and it comes starts in the centi out here, see. Oh, young good to see you, thumbs up, and finally come out here and goes out to you. Get it? **Sort of.** Yes, it comes out here, see. Comes out here, here, you. And and here. **Uh huh.** And it comes here, and it comes out, and bing. That's a good spectrum, see. **That's a good what?** That's a good foul throw both here. Fly, flyer, see it flows cold or gives or kicks out or bing, whatever it is, it we has no fit football fired out, it's just pulley, see, but they say feel them, uh, I guess you're meant to have beds, see I don't know. [chuckle]

Duration of transcription: beginning to 01:28.1

base

They're a foot, you know, boom. What's this? You know, there's big anger right there. All right. End of the football. End of the football? Yes. Is it, is it, is it, and so it's a football right here. Like, cause it comes in, see? Yeah. The end of it, see. Oh, we have other things, see. I don't understand. Well, it's quite a parable in the other, see. You don't understand it, but it's probably just in the long, sort of, even comes from there. And it comes source in the country, out through, see. All the under and see, it comes up. And finally, come out here and goes out, see. You have it? Sort of. You know, it comes out here, see? It comes out here, here, and here. And it comes in, and it comes out, and being. That's a good fastball, see? That's a good what? That's a good, good flow of, flow of those, fire, fire, see? It flows cold, or it keeps it kicks out, or being, or whatever it is. We have no football, no doubt. It's just pulling, see? But they say, feel those. Oh, I guess you meant you have bets, see? I don't know.

2. (1:03 long clip) <https://www.youtube.com/watch?v=stdjJeU1doI>

Black: Primo (patient)

Blue: Dr. Lori (interviewer)

So if we look at a calendar in general, Mm hmm. how often do you guys get together? To make. Like maybe once a quarter, To make an es, save of base, starting as one, two, three... Okay. And fifth in, October, November, December. Six, six of them. Okay, so there's only six meetings. Also, also velt, but they have a, a uh, cella, a, favela lavir, uh uh, fabir, famigus. So you told me like March, April, May, and then October, November, December? Yeah, in the uh, in the... So is it for snowbirds? Yes, you do, yes... Okay. So maybe six months out of the year total? Um, memen Mondays we ways yes a [...] Okay, with that bin? I'll get you a different one.

3. <https://www.youtube.com/watch?v=cJ6OvHq9WrQ>

Black: Jim, the husband and patient

Blue: Amy, the wife

Red: I don't know who that is, but she gives the interview

Wire, wire begs. [Oh, are you talking about whitewater? Yes, yes.] When we were kids, down near bellends and seleybins and we weres, wiffen wellerhens. Jefferhan jefferhans. We were kids. Is it whitewater? [No no, no. Not Six Flags.] Refordhans. is, is exactly right there. (relley) Relley

friends... **Sandy Springs**. It's this kind of, it was it was a, it was a mars, it was a marsons, a marshen, a marsons. **It was a, something with [lots of water? Yes, yes.] I don't know**. Yeah but just, it's it's. **I didn't grow up, that where** You were, you with me(ds), and, when we were kids, we went all the way down to here, **Chattahoochee? That's going to be a long one to write. [(writing it down) Chattahoochee**. Cause I'm just kinda confident.] Yeah, that, that, that is where I used to camp, but you, you and me [...] **So it's a place you and Amy [went... Yeah,]** I mean literally, literally, did of, there's one, **What happened at that place? Give [us more clues. Like what did we do there?]** **So you were kids, and what else? What did we do there?** We, (be) before the kids, probably without our little kids, so that's how many years (we pr) we probably younger were on plays the lights. And., [and, **Where did we]** food, the food, is the (k) there's a, there's a, (it's) it's a, it's like a... **It's a kind of food?** Yes, yeah, it's a tysa place... **So this is all about food? This is all about food.**

5. <https://www.youtube.com/watch?v=AqcwPqDaYnw> (unused, probably not actual aphasia)

Broca's

1. <https://www.youtube.com/watch?v=RMa9BVpJkYQ> (Most of this video isn't the patient speaking, but this represents a real interaction of someone with Broca's aphasia, so I will use it.)

Black: Kent (patient)

Blue: interviewer

elisions (like doin' for doing) are represented in full

Yes. **So how are you doing today, Kent?** s... Tim set of... tubers... okay. **Okay? Are you having pain anywhere?** No. **You feel pretty good in general?** Yeah yes. **You can understand what I'm saying to you, right?** Yes. **Okay. Can you close your eyes for me?** Perfect. **Now tell me your name.** George t... cause I've h... I've had... No... I am... I've had... **Can you tell me what city we're in right now?** I bad. **This is Richmond. Can you say Richmond?** Yes. Rich of... Richmond. Rich is good. **Can you say one two three?** One two three. **Okay. That's very good. Can you name the weeks of the uh, days of the week for me?** yes. **Name the days of the week.** I am I... I have had. I. (simultaneously) [**As far as you can do. Sunday.**] Susan. Fancy. Thirty. Friday. Saturday. Sunday. **Okay. That's good. What day is it today?** Monday. Monday... **Can you tell me what the weather's like outside?** Yes. Um... Seeder. Yes. **Frustrating, ain't it?** yes. **Okay, thank you very much.** Thank you.

output

Yes. So how are you doing today, Kim? Timb-sitter. Timb-s. Okay. Okay. Are you having pain anywhere? No. You feel pretty good in general? Yes. You can understand what I'm saying to you, right? Yes. Okay. Can you close your eyes for me? Perfect. Now tell me your name. Yes. Go... Because I... I'm bad. I'm not gonna try to... No. I'm bad. I'm bad. Can you tell me what city we're in right now? I'm bad. This is Richmond. Can you say Richmond? Yes. Richmond. Richmond. Richmond. Can you say one, two, three? One, two, three. Okay. That's very good. Can you name the weeks of the... Days of the Week for me? Yes. Name the days of the week. I'm... I'm... Sorry. Tuesday. Fancy. Firty. Firty. Saturday. Sunday. Okay. That's good. What day is it today? Monday. Monday. Yes. Can you tell me what the weather's like outside? Yes. Tuesday. Yes. Frustrating unit. Yes. Okay. Thank you very much. Thank you.

What it tends to do more: Tends to hypercorrect words more than usual, assumes things not inherent in speech (says Tuesday near the end when it doesn't sound like "Tuesday")

There were sections where both of us failed (near the beginning when the speaker failed to sound anything out and both I and the base model has to guess)

2. <https://www.youtube.com/watch?v=f2liMEbMnPM> (time: 2:24.823)

Now tell me what this thing was with your legs last week or week before. Uh, no good. Uh... uh, ache, ... and... uh, ... uh, uh ... knees, and ankles, uh ... What'd you do about it? Uh, home, ... doctor, and, legs, uh, walking, no good, [uh... No good, huh?] And you're a fella who likes to [walk, too. Oh, geez.] yeah, huh? Oh boy, oh boy. And it's getting too cold, Yeah, to run your John Deere tractor. [yeah, Ain't it?] yeah. Up and down town. Yeah. What'd the doctor tell you, Jack? Don't know. He don't know what's going on? No, no. Did you feel sick in any other way? No. No, no. Uh, ... uh, ache. [Legs ached? Uh,] Yeah. Uh... Did you feel weak? No. No, no. No, uh... Maybe had to touch a room a tis. Don't know, gee. Uh...

3. (UK English) <https://www.youtube.com/watch?v=IP8hkopObvs> (time: 1:29.211)

So what's your name? Um, Scott. Oh, no. Sarah Scott. That's right. And how old are you? I can't. Try. I can't. You're nineteen. Nineteen. Yeah. And what happened to you? Um, stroke. Um, school. And English class. Okay. And I, um, book, and I read it aloud. But I can't, cause, stroke. And what, ... happened after the stroke with your speech? Well I, I can't. What do you do now, every day? Oh, um, ... speech, lang, um, the speech. Therapy. Yeah. Okay. And, um, also, riding, um, Riding what? Oh, um, ... horses. Yeah, good. And how do you feel? I'm fine. You're fine? That's good.

Conduction aphasia (not either type)

fluent speech and comprehension, but unable to repeat words or sentences

1. <https://www.youtube.com/watch?v=G94TvTvjeeU> (time: 0:00 to 0:41.262)

The producer asked us to count to 10. Remember that? Yes. Can you do that again? Why? One, two, three, four, five, seven, n, boyn, two, gebrys, people, go I can't [no, I, No,] That's really hard,

let me get you started. I was stunned, *Okay*. [One, One,] Two, four, five, six, bedder, send, poind, uh, Good enough. [Let's... Is that all right?] That's fine.

2. <https://www.youtube.com/watch?v=N91JMnoVSfI> (this one probably isn't because he repeats the same word over and over again, but it was classified under conduction aphasia and was one of the few I could find)
3. <https://www.youtube.com/watch?v=34kj3oqzZks>

unused

https://www.youtube.com/watch?v=1yC-uX5VOiE&list=PLVEF_12Z5MxtIf5P4u9MnvMYmpZR1_h5V&index=6 (this one I chose not to transcribe because it appears the "patient" is just a paid actor because she appears in many other videos of different types of aphasia with different severities)

Anomic aphasia (none of the above types)

Characterized by inability to find specific words for things (is milder than Broca's or Wernicke's)

1. <https://www.youtube.com/watch?v=w95EF3fW2IA> (from 01:01.681 of the original to ???)

Your first object is this. Can you think of the name for that? No. Okay. So, first, what shape is it? It's round. Why don't you write down underneath that it's round? Okay. Where could you find it? Uh, sometimes it's in my kitchen? Yeah, you could find it in your kitchen, so why don't you write down kitchen? ... Who could use it? Um, I could use it? I like to eat it sometimes. Yeah, you eat it, so actually, you can write that right here, that you eat it. What does it look like, Catherine? It's um, it's orange. It's orange. What else? Why don't you feel it? What's it feel like? It's hard. It's hard. Okay. Can you smell anything? It smells sweet. Does it smell familiar? Have you smelled that before? I think so. *Okay*. Why don't you write down some of the things that you just told me? Okay, so look at everything that you've told me. You've told me it's round, it's hard, it smells sweet, you find it in your kitchen, you can eat it... Can you think of the word for it, Catherine? Keep looking at all of your clues. Is it an orange? It is. It's an orange. Say it again. Orange. Write it down. ... What is it? It's an ... orange. Here, hold it and say it again. It's an orange. Good job.
